**NEW GUESTS ATTRACTION HAS BEEN BUILT AT HOTEL BOROBUDUR JAKARTA,
THE BUTTERFLY DOME**

Hotel Borobudur Jakarta managed by Discovery Hotels & Resorts recently was honored to be awarded the Luxury Green Hotel 2016 at the 2016 World Luxury Hotel Awards. As the real action to take care of environment, Hotel Borobudur Jakarta has been built big butterfly dome which stand strong in length : 10,1 M, wide : 5 M and high : 3,5 M at garden area.

In this butterfly dome, guests may see 32 (thirty two) species which breed by the garden team of Hotel Borobudur Jakarta such as *Troides Helena*, *Euploea Mulciber*, *Papilia Polytes*, *Euploea Phanareta*, *Papilio Memnon*, *Junonia Iphita*, *Graphium Agamemnon* and many more. The garden team breeds those butterflies which mostly active during the day since its caterpillar doesn't itch on our human skin. For several species of butterflies which active at night (*nocturnal*), it has feathers from itchy caterpillar and the cocoon in the soil.

Butterfly dome open for public everyday starting on 08.00 AM to 05.00 PM. Guests also can enjoy not only the beauty of butterfly but also the breathtaking view from plants that used as the food for caterpillars itself like *Lantana Saudi*, *Cuphea Hyssopfolia* (Taiwan Beauty), *Pseudoranthemum* (Melati Jepang), *Clerodendrum Paniculatum* (Bunga Pagoda), *Forest Beetle*, *Hibiscus Rosasinencis* (Kembang Sepatu), *Bromelyad*, *Polyalthea Longifolia Pendula* (Glodokan Tiang), *Cytrus sp* (Jeruk), *Orchid Phalaenopsis sp* (Anggrek Bulan), and *Cassia Alata* (Ketepeng China).

With this tireless efforts and unbounded passion, Hotel Borobudur Jakarta as the 5 - stars hotel not only give new facility as attraction to their valuable guests but also educate them to love this earth and gain awareness to care about animals.

*Terletak di jantung kota Jakarta dengan tamn tropis seluas 9,3 hektar, dekat pusat niaga, perbelanjaan dan kantor pemerintahan, serta berbagai pusat rekreasi dan tempat wisata, Hotel Borobudur Jakarta merupakan oase ketenangan yang sebenarnya.
